My name is I strongly object to the proposal of rubbish tip. The proposed rubbish tip will significantly impact the health of the Lidcombe resident including me and my family. The local traffic around the peak ours are already busy, and adding trucks delivering wastes will cause a big congestion. I do not believe the rubbish tip should be located so close to the city, it could be located further down in regional area. Why does it have to be Lidcombe where we have so many residents already occupying the areas close by to the proposed rubbish tip site? I moved here with plans on making my home a forever home. Yet something this important which can significantly affect all of us living here in Lidcombe has not been communicated to us properly and I have had to find out this news not through the council but through other residents. This rubbish tip will devalue our home, lower our property value and the development of our community. This is unfair for the local residents. Where are our rights as Lidcombe resident? Please consider this issue in our point of view.

Kind regards,
