Development Application Process

Steps in Development Application Process

Role of Council in Development Applications

Council officers have a key role in the **development application process**:

- Receive applications
- Manage notification of applications
- Undertake assessment of applications
- Provide recommendation for applications

- **Decisions** on development applications are with **independent Panels or with Council officers.**
- **Councillors do not have the ability** under NSW legislation **to approve or refuse development applications.**

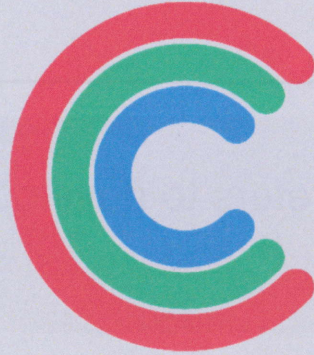

Designated Development

Designated development refers to developments that are **high-impact or environmentally sensitive**.

If a development application is categorised as designated development, the application

- Must be accompanied by an **Environmental Impact Statement (EIS)**
- Will require **public notification** for at least **28 days**
- Can be the subject of a **merits appeal to the Land and Environment Court** by objectors

An **EIS** for designated development must be **prepared in accordance with the Planning Secretary's requirements**.

CUMBERLAND
CITY COUNCIL

109A Church Street, Lidcombe (DA2023/0130)

Scope of Application

DA 2023/0130 is a development application for a **waste transfer facility** at **109A Church Street, Lidcombe.**

Objectives of development application:

- Facility capable of **processing 80,000 tonnes per year** of mixed domestic and commercial organic waste streams
- **Construct site infrastructure needed to support the proposal**, including main industrial shed, administration and office attachment, internal access, two weighbridges, odour management system, parking and hardstand, stormwater infrastructure, fencing, and landscaping

Development application submitted by a private company, not by Council.

Status Update

- **Application accepted** by Council to commence process in **May 2023**
- **Notification** of application from **29 May 2023 to 14 July 2023**. Over **1,900 submissions** received
- Internal Council officer and State agency **comments (referrals) received**
- **Request for additional information** submitted to applicant in **August 2023**, based on Council officer review and submissions received

Next Steps

1

Applicant to provide a **response** to Council, anticipated **October 2023**

2

Independent planner on behalf of Council to prepare **assessment of application**

- Consider relevant planning controls
- Submissions received from the community
- Information provided by the applicant

3

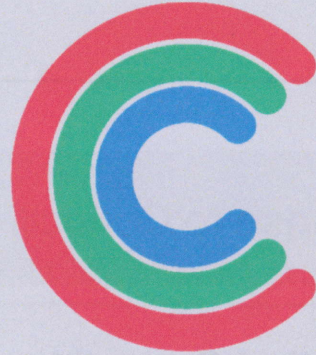

Assessment and **recommendation** on application, anticipated **November 2023**

4

As a designated development, application will be provided to the **Sydney Central City Planning Panel for their decision**

5

Public meeting to be held by Sydney Central City Planning Panel prior to decision

CUMBERLAND
CITY COUNCIL

Lidcombe Traffic Study

Scope of Traffic Study

Traffic study to be undertaken for the **Lidcombe** area:

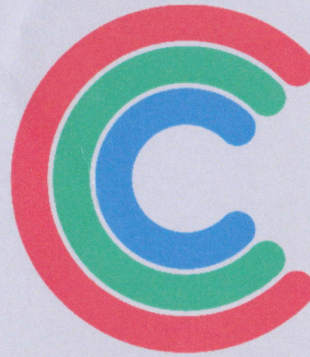

- **Current traffic and transport movements** in town centre and surrounds
- Consideration of **car and truck movements** in area
- Projection of **future movements and traffic modelling** to be undertaken on road network and intersection capacity
- **Road repair** and maintenance considerations
- Recommendations on **short term and long term options** that responds to analysis undertaken

Status and Next Steps

Consultant appointed by Council in **August 2023** to undertake the study.

- 1** **Traffic data** on current road network conditions to be collected in **August and September 2023**
- 2** **Preliminary analysis** of matters included in study provided in **September 2023**
- 3** **Projections** of future movements and traffic modelling to be undertaken, anticipated **between October 2023 and December 2023**
- 4** **Recommendations** to be prepared, anticipated **between February 2024 and March 2024**
