

CUMBERLAND  
CITY COUNCIL

21 November 2023

Dear Sir/Madam,

**Update on Development Application DA2023/0130 for a Proposed Organic Waste Transfer Facility at 109A Church Street, Lidcombe**

Council is in receipt of a designated development application for a proposed organic waste transfer facility at 109A Church Street, Lidcombe. Notification of the application was undertaken between 29 May 2023 and 14 July 2023, with over 1,900 submissions received. The submissions received will be considered as part of the assessment of the development application.

As an update on the application, Council requested additional information on the proposal from the applicant in August 2023 and this was provided to Council in October 2023. This additional information is available on Council's Development Application tracker and is also being reviewed by Council officers and State agencies as part of the process. The assessment of the application by an independent planner is also underway. At this stage, it is anticipated that the assessment will be completed in February 2024.

As the application is classified as a designated development for a waste management facility, the assessment and recommendation from Council will be provided to the Sydney Central City Planning Panel for their decision. A public meeting will be held by the Panel prior to a decision being made on the application. Details of this meeting will be provided by the Panel closer to the time.

If you require any further information, this is available through Council's website <https://www.cumberland.nsw.gov.au/development-application-tracking> or by contacting Council's Customer Service on 02 8757 9000.

Yours faithfully

Daniel Cavallo
