We, the undersigned residents of the Lidcombe community, strongly oppose the proposed landfill in our area. This landfill would bring harmful waste and chemicals to our community, polluting the air and water, and endangering the health and safety of all residents.

We urge the government and local officials to reconsider this proposal and find alternative solutions for managing waste. We also call on our representatives to prioritize the health and well-being of our community over the profits of waste management companies.

We stand united in our opposition to the Lidcombe landfill and will continue to voice our concerns until our community is safe and protected.

Signed,
