I believe that the above application should be rejected on the grounds of health and safety for our community. The extra trucks on the roads around the site will lead to traffic congestion and more pollution in our area. There will , more than likely, be odours from the plant that are uncontrollable, drifting through the dining and residential areas of our wonderful suburb , no good for business or residents. The hours that the plant is scheduled to operate are too long , noise from trucks etc will disturb residents as well as interrupt peak hour traffic. Please care for the people that vote you into office , our future and our childrens health and safety is in your hands.
