Dear Bharvisha Sheth,

My family and I have been living in the above address for over 40 years and it has been very good environment for my children and grandchildren to live here.

I am **OPPOSE** the proposal for the construction of organic waste station for the following reasons :

1. This will cost health hazards to the area we are living, e.g. more fly and insect build up
2. Pollute the air around the area and causing bad smell
3. Will down grade the properties around the area
4. This will create more trucks coming and go in the area and making more dust on the road within the area.
5. It will cause more noise hazards while heavy trucks moving around.

I will be very disappointed if this proposal can go ahead, so please stop this organic waste construction.

I hope Cumberland Council will stop and reject this development.

Many thanks for your consideration !!!!!

Best regards,
