Dear Sir/Madam,

I wish to submit my very deep concerns and objections regarding DA2023/0130 – proposal to build an organic waste transfer station at Church Lidcombe.

Three generations of my family have lived in Lidcombe and have watched it grow and develop – however this proposed waste transfer station is certainly not the direction I want my suburb to go. Not only will it affect the ambiance of the suburb, but will certainly affect property values and impact local lifestyle and traffic.

If this development application is approved, I will certainly have to consider my choices and options at the next Council elections.

Thank you for your attention and consideration to my opposition to this proposal.

Yours faithfully
