To Cumberland Council,

I object to the development application of organic waste transfer station at 109A Church Street LIDCOMBE NSW 2141; Lot 1 DP 778492 . File: DA2023/0130 .

The proposed development poses a risk to the health and well being of the residents.

The odour control assessment, suggests that odour will only be minimised and not completely rid of. This will severely impact the quality of life for surrounding residents.

There is no evidence that the construction and use of materials of the proposed development complies with the recommendations of the noise impact statement, which will again if not followed, impact the livelihood of residents.
