I am writing to express my concerns regarding the proposed rubbish tip at 109A Church Street in Lidcombe, NSW, 2141. As an American citizen with family residing in Lidcombe, I have been considering investing in the area. However, upon learning about the proposed rubbish tip and the lack of extensive communication regarding this matter, I must admit that I am now having second thoughts.

Lidcombe holds a special place in my heart due to the presence of my family members, and I have been actively exploring opportunities to invest in the local community. The prospect of investing in real estate or establishing a business here had been an exciting prospect, as I value the strong connections and support network that come with having family in the area. However, the proposed rubbish tip raises significant concerns for me, not only in terms of environmental impact but also its potential effects on property values, health, and overall quality of life for residents.

One of the major reasons I was drawn to Lidcombe was the town's serene atmosphere and its community-oriented nature. However, the lack of extensive communication about the proposed rubbish tip has caused a significant disruption in the trust and transparency that I believe are essential for maintaining a harmonious relationship between the local council and its residents. It is disheartening to learn that such an important development was not broadcast to residents in a more comprehensive manner.

I request that the Cumberland Council take into consideration the concerns of residents, both current and prospective, who are invested in the future of Lidcombe. It is imperative that you ensure transparency and actively involve the community in decisions that directly impact their lives. By doing so, you can build trust, foster a stronger sense of community, and work collaboratively towards the betterment of Lidcombe as a whole.

I respectfully urge the Cumberland Council to reassess the proposed rubbish tip and its potential consequences. I believe it is crucial to engage in open dialogue with the community, providing them with ample opportunities to voice their concerns, ask questions, and participate in the decision-making process. Moreover, I encourage the council to explore alternative solutions that prioritise the well-being and interests of the residents, while also addressing waste management needs effectively and sustainably.

Thank you for your attention to this matter. I appreciate your commitment to serving the

community and your consideration of the concerns raised. I trust that the Cumberland Council will take the necessary steps to ensure the long-term prosperity and well-being of Lidcombe and its residents.
