> Our reason for objection is there will be traffic congestions most definitely due to the amount of trucks that will visiting and disposing all waste products hence, with long lead times with other current disposal facilities this will definitely affect the community as it will be situated on a 2 lane road with one running the opposite direction.
>
> We do not need another waste facility within a 5km radius as majority of the community and industries can visit cleanaway located in olympic park for disposal.
>
> Not only is it a burden to community, it just seems like a waste of land for disposal and can be developed into APARTMENTS, with the increase of visitors and migrants coming to Australia.
>
> I sure hope the council listens to the community as it represents us as a whole.
