Dear Cumberland Council,

I am concerned about the news of an Organic Waste Transfer at 109A Church Street Lidcombe due to its proximity to numerous facilities which are used by children and older residents. The air, noise and soil pollution which will be caused by the facility will have a detrimental effect on the health on residents, particularly children and the elderly. It is shocking that it is to be built so closely to places such as child care and aged care, I am troubled that it poses a risk for the general public health wise. Overall, I am displeased with the idea of a waste centre being built near facilities which are used by vulnerable age groups.

Regards,
