Dear Cumberland Council management team, It has been brought to my notice that Cumberland Council proposes to build a rubbish centre (Organic Waste transfer station at 109 A Church Street.

I totally object to this proposal, as this would have significant impacts on myself, as well as the residents currently living near the proposed construction sites.

The negative impacts are, such as traffic congestion, air, noise and soil pollution, dust, fumes and bad smell, negatively impact the tranquility of our suburb, negatively impact the health and safety of us (residents) and next generation, negatively impact property values, negatively affect residential, commercial and recreational environment.

Furthermore, as a result of the negative impact, we local residents will be need to bear the cost of road works damaged by the ongoing heavy vehicle usage of the area.

I urge you to not go ahead with the proposal.

Regards
