Dear Sir/ Madam

My name is                      and live in                      My contact number:                     

I'm writing to complain about Rubbish TIP in Lidcombe

Traffic congestion: the road traffic is congested and there are often traffic jams.

Bringing in large trucks constantly in and out of waste and dumps between 6am to 10pm Monday to Friday, 8am to 6pm Saturday will undoubtedly exacerbate the problem. The presence of these large garbage trucks will impede traffic on already congested and narrow roads, causing further inconvenience and delays to commuters and residents.

The developer's report failed to add to the potential impact on recently built condominiums near the proposed dump and on surrounding residents. Noise pollution from the operation of waste and refuse centers has a serious impact on the quality of life of the residents living in these apartments and nearby residents. Disruptions from noise pollution can lead to sleep deprivation, increased sleep levels, and an overall diminished sense of well-being. This adverse effect on the mental health of residents cannot be ignored.

Your sincerely
