To whom it may concern,

I am writing in regards to opposing the development of a rubbish tip so close to residential and commercial areas of my mother's apartment in Lidcombe. In addition to the obvious concerns regarding the waste disposal, associated smells, traffic and noise, it will be detrimental to the value of the properties and the livelihoods of the residents. To erect such a development and operations within metres of residents and a major thoroughfare for commuters, students and general public, poses a significant health and safety issue that I'm sure the council would not want to have to be accountable for in the long term.

Please do not put the health and wellbeing of these hard working residents into a commodity for the highest bidding developer.
Thank you for your consideration in this matter, and hope that the wishes of the residents are taken into account in your approval process.
