Hi,

[REDACTED]. My concerns regarding the proposed development of the rubbish tip so close to my home are shared within those I have spoken to in the Lidcombe community. The smell that this development will bring along with air and noise pollution I can imagine will be very harmful to the health and well being of our community. Property prices in the area will also no doubt be negatively affected and as my husband and I near retirement we will be looking to sure up our future however this effect will hinder our ability to do so.

I hope the proposal will not go through for the greater good of the local community.
