Subject: [EXTERNAL] DA 2023/0130 - organic waste transfer station in Lidcombe

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

To whom this may concern,

I vote no for the organic waste centre in Lidcombe.

It has come to my attention that there has been a DA application to put a organic waste tip in Lidcombe.

I have lived in Lidcombe for in excess of 38 years and I am extremely concerned about the impact this will have on our community.

The proposed DA location is in a pocket that is extremely busy as it is and by adding additional 118 trucks per day will congest this section even further.

The back side of Lidcombe floods in heavy rain periods. My concern here is that rubbish could potentially get into the water ways.

The impact of the noise and the long proposed trading hours will have on my health and peace of enjoyment.

I am 70 years old and would like to live my days harmoniously. Not being able to open my windows because of the disgusting smell, noises, contaminated water ways and added traffic will not allow me to have this.

I do not agree with the waste centre being approved for Lidcombe.

Kind regards,
