Dear Sir/Madam

I, \_\_\_\_\_, am writing to you to express my strong objections to the proposed 'Organic Waste Transfer plant' in Lidcombe outlined in DA2023/0130 Site: 109A Church st LIDCOMBE NSW 2141 on Lot 1 DP 778492.

The proposed plant is very close to residential and high foot traffic areas such as the train station, parks and commercial restaurants. This poses a great risk to health, property prices, and infrastructure with an increase in heavy vehicles, traffic, odours, pest activity, noise etc.

With so many people looking to move into the area and new apartment blocks in construction, this plant seriously negatively impacts the future of this neighbourhood.

Waste disposal facilities are always located far from residential areas for the outlined reasons above, this hasn't changed for decades. The current proposal flies in the face of wisdom and I believe the risks need to be reconsidered.

In light of these concerns, I urge Cumberland Council to reconsider the proposed location of this 'Organic Waste Transfer Station under DA2023/0130. Protecting the future of this vibrant community and ensuring our continued quality of life through preserving our clean water & air, the safety of our neighbourhood and a peaceful environment for people to reside should be of the utmost importance.

I entrust to you this consequential decision, and believe that you will give the due deliberation to these concerns to arrive at a decision that not only prioritises the welfare of the local people but also the interests of the community.

Kind Regards,
