Dear Council,

As a teacher of a nearby childcare centre, I strongly object to the proposed rubbish tip at 109A Church Street. The proximity to schools and childcare centres raises grave concerns regarding the well-being of children.

The operation of the rubbish tip would introduce air and noise pollution, posing significant health risks to the children under my care and those attending nearby educational institutions. Children are particularly vulnerable to the harmful effects of pollutants, which could result in respiratory issues and other health complications.

Additionally, the presence of garbage trucks, constant noise, and potential odours would disrupt the peaceful environment necessary for optimal learning and development. It would undermine the quality of education and well-being of our children.

I urge you to reconsider the location of the rubbish tip, prioritising the health and welfare of our children. Let us ensure their safety and provide them with an environment conducive to learning and growth.

Thank you for your attention to this matter. I kindly request that you take into account the concerns raised by the community, especially the impact on the vulnerable children in our area.
