Hi Cumberland Council,

I would like to object to the organic waste transfer station that is being built in Lidcombe.

Reason for objection:

- it will introduce massive truck movements very close to a residential area (100m away)
- This transfer station will be used for councils across the Sydney metropolitan area thereby introducing many trucks throughout the Lidcombe road network
- roads will be damaged by such heavy truck movements for the foreseeable future, who will pay for this?
- as it is organic waste, there may be odour leakage from the trucks
