Hi Assessment Officer of Cumberland Council

I'm writing to express my dismay that you are considering such a development at Lidcombe. An extremely popular suburb so close to local population, amenities, and the gateway to the Sydney Olympic Park. My family and I are fully opposed to this application.

An organic waste station at such close proximity to local and international visitors to Sydney Olympic Park via Lidcombe will damage our reputation as a modern cosmopolitan suburb due to its smell and additional traffic gridlock. Residents of Lidcombe are already competing for reputation against Homebush and Strathfield, which is only 1 and 2 suburbs away.

I've been a resident of Lidcombe for 40 years, and now proud to bring up my kids in the same suburb that I grew up in. I would love it for them to continue residing here for more generations to come. However, this will affect their perception of what Lidcombe will become if this organic waste station was to be approved and in operation.

Please reconsider and listen to the numerous residents I am hearing is opposed to this application, as there should surely be more suitable away from a highly dense suburb and increasing thoroughfare.

Thanks and regards

Resident of
