Hi,

I strongly object the proposal for an organic waste transfer station at 109A Church St, Lidcombe because it will

- * be so close (less than 100m) to the existing residential area and the newly built high rise apartments.
- * affect quality of life of the locals.
- * bring more heavy traffic and cause congestion on the roads leading to the site.
- * will damage roads more due to the number of trucks coming and leaving the site.
- * create noise in the residential area.
- * generate odour/smell that is easily propagated into the surroundings by breeze or wind.
- * will decrease property prices.
- * be too long hours of operation.
