To who may concern,

My name is                      and I live at

I have heard about the plans to develop an organic waste centre right near our doorstep. I understand that these are very important facilities but I also think you can also empathise with the concerns we have about it being so close to our homes. I am sure you would not be thrilled to hear the news that a waste facility was opening up a few blocks away from your own home, bringing with it even more traffic congestion, heavy trucks, noise, pollution, vermin and decreased property prices.

Please reconsider the location of this waste facility.

Thank you,
