I am years old and will be living in lidcombe in the next month right across from the proposed location of the rubbish tip. I am concerned about the impact and the health concerns that the increase of traffic, air pollution, noise pollution and odor and pests the rubbish tip will create for myself and fellow residents. I cannot afford to move or live anywhere else and the negative effects that the proposed tip will have on my health cannot be denied.

Please reconsider building this rubbish tip so close to the residential areas of Lidcombe. The idea that I will have to live right across from such a hazard is heart-breaking for myself as there is nowhere else for me to go.

Thank you for your consideration.

Kind Regards,
