CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

**Main concerns:**

- Timing of these movements – timeframes don't align within the Environmental Impact Statement (EIS), so more detail, corrected, should be provided.
- Rubbish on trucks could also 'fly out' during the transport phase. While trucks are indicated to be covered, the reality is that they are not always covered.
- From EIS – Monday to Friday – 6.00 am to 10.00 pm; Saturday – 8.00 am to 6.00 pm; No operations will take place on Sunday and public holidays
- 
- Note that the Cumberland Development Control Plan (DCP) for Industrial zone says that timeframes are 7.00 am to 6.00 pm Monday to Saturday (nothing on Sunday). The proposed operational times go significantly over the DCP.
- This is going to affect our traffic on school drop off and pick up times.
- Odours will also buffer the area when the trucks are travelling through to the site.
- Whilst this is an area zoned 'industrial', however, it is within very close proximity – less than 100 metres to the residential area.
- This site is not suitable for waste transfer processing – it needs to be within a full industrial area, with major arterial roads, not town centre or suburban roads, and not within such reach of a major residential area.

Regards,
