**Address:**

**Reasons for objection: the proposed Organic Waste Transfer Station is too close to the local residential area including the property I reside with the below negative effect.**

- increase in traffic congestion
- increase air, noise and soil pollution
- increase dust fumes and bad smell
- negative impact on the health and safety of local residents, especially elderly and young kids
- negative impact to property value
- negative impact to tranquility of our suburb
- negative impact to residential, commercial and recreational environment
- local residents will bear the cost of roadworks damages by the ongoing heavy vehicle usage of the area.

Regards,
