Reason for Objection: Lidcombe is primarily a residential suburb with schools, child care, aged care, parks and local businesses. In building a rubbish tip here, there will be a severe decrease in quality of life for all residents who live in the area. Traffic congestion from the 118 truck movements everyday will disrupt the living conditions of the community along with their health and safety, with potential increase in traffic accidents along with the circulation of pollution throughout the suburb. To add insult to injury it will be these local residents who bear the cost of roadwork due to it being damaged by ongoing heavy vehicle usage.

This will overall decrease Lidcombe's marketability as a residential suburb and lower its property value. Which will be unfortunate due to the many apartments that are have recently finished being built and are currently being built.
