Subject: [EXTERNAL] OBJECTION TO DA2023/0130, SITE: 109A CHURCH ST LIDCOMBE 2141, LOT 1 DP778492

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Cumberland Council

my name is _____ I with address of _____ and with mobile number of _____

I object to the above mentioned development.

Reason for objection:

- smell to the community. i go pass near the development site regularly and i feel unsafe being exposed to toxic smell
- health hazard to the community with pollution: we do not know what sort of substance would be mounting in that site which is very close to residential areas. Do we even know the impact of the waste in longer term?
- traffic: Lidcombe is already so crowded with many cars with so much development of apartments. i already feel unsafe walking along the busy streets of Lidcombe. i can't imagine with large trucks. it bound to have road accidents to animals and people. our road is not designed for heavy duty traffic from my observation of the streets.
- noise level will also increase with heavy trucks coming in and out all the time!
- negative impact on house price: my only asset is my house here and last thing i want our council to do is approving this sort of development which will reduce my asset value.
- also who will have to pay for the maintenance of the streets???? i am already very unhappy with the shocking increase of rates every year compared to the service we get. why should i pay for it?
- being in the suburb, i want to feel peaceful. not feeling like i am living in the middle of industrial site!

I am lost for words. what sort of person/organisation/entiry would even think of buidling Rubbish dumping site next to school and next to residentals?????

Please consider my concerns and reject the application of the above mentioned.

Thanks and regards,
