---

I am very concerned that the quality of life will diminish in Lidcombe with the building of an Organic Waste Transfer Station. I say NO to building it so close to schools, aged care, child care, homes and businesses. We do not want large garbage trucks going through Lidcombe transferring rotting waste through our streets. The smells in particular during Summer will be horrendous. Our house prices will decline and mental health will be affected by the long hours of operation 6am to 10pm at night. No one wants those big trucks causing excessive noise pollution to be operating at any time but so close to houses etc that is unexplainable. Traffic is already busy through the streets around that area and this will cause further issues.

Its a big NO!!!!!!!

regards
