Dear Cumberland Council,

My name is \_\_\_\_\_ from \_\_\_\_\_. I am writing as a local resident to object the above application. I am greatly concerned that the proposal, if it goes ahead, will have significant effects on the environment and the local community. As a local resident this is a matter of concern which effects me and other local residents.

1. Lidcombe already has a huge traffic congestion on both sides of Lidcombe station due to so many new apartments built and this will make it more worse
2. As it is very near to proximity of 100m to residential property it threat to the residents, schools, aged care and the environment. This will affect resident's health and well being.
3. The locals will need to bear the extra cost of the ongoing damage to roads when numerous trucks enter and exit the site on a daily basis.
4. This will affect the property prices and people interested to live in this area.
5. Lidcombe already polluted with the increase of building and apartments. Please don't build the Waster Transfer Station in the area to minimize the risk of locals getting serious health issue with air pollutions.

Thank you for your time and hoping Cumberland Council think of their people, health and wellbeing of all the local residents.

Kind Regards,
