Dear Madam/ Sir

My name is [REDACTED] I know that you won't read this email but please just give me one minute. We are attached to this suburb as we have been living in Lidcombe for more than 1 decade with my two children. This idea of having a Rubbish centre in Lidcombe is absurd, there is literally no thought given into the health of people living in Lidcombe and just seeing an empty piece of land deciding it will be the new home for the rubbish. Organic rubbish goes through fermentation to break down into methane equivalent to flatulence, have you ever had an idea of smelling gas that does not go away. Please take this into consideration as this plan is not thoroughly thought about and the bad outweighs the good in OUR EYES.

Hopes you read this
