My name is _____ currently live in _____ and I have been living in _____ for more than 20 years!!! I grew up in the suburb and _____ is my home.

I am writing to you today with great concern regarding the proposed construction of a rubbish centre in Lidcombe, Sydney. As a passionate resident and a concerned citizen, I believe it is our collective responsibility to stand together and protect the future of our beloved community.

The proposed rubbish centre poses a significant threat to the environment, health, and overall well being.

Health Hazards: Lidcombe is home to a diverse population, including families, elderly individuals, and young children. The establishment of a rubbish dump could expose our community to harmful pollutants, toxic fumes, and noxious odors. The potential health risks associated with such exposure are alarming, including respiratory issues, allergies, and long-term health complications. We cannot compromise the health and well-being of our community members.

Property Values and Livelihoods: The construction of a rubbish dump in Lidcombe would inevitably lead to a decline in property values. Residents have invested their hard-earned savings into their homes, which could now face a significant devaluation due to the proximity of a waste facility. This decline would not only impact homeowners but also local businesses that rely on a thriving residential community for their success. We cannot allow the financial livelihoods of our fellow community members to be jeopardized.

Quality of Life: Lidcombe is renowned for its peaceful neighborhoods, where families can enjoy safe streets, community events, and recreational activities. A rubbish dump would introduce a constant source of noise, traffic congestion, and an overall decrease in the quality of life for residents. Our community's unique charm and the tranquility we cherish would be shattered.

PLEASE DO NOT GO AHEAD WITH THE PROPOSAL. YOU WILL RUIN PEOPLES LIVES!!!!!!
