To whom it may concern,

I wanted to send this email to express my concerns with the construction of a large waste transfer station.

As my family and all children of nearby families are living in close proximity to this location I believe that our living conditions are in the vicinity to be impacted by both the odours released by this site as well bad exposure from the pollutants of waste products.

Please review the concerns of residents living in close proximity to this site as it will affect our quality of living.

Sincere regards,
