Subject: [EXTERNAL] Objection to the proposal DA2023/0130

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear councillors:

I'm one of the residents in Lidcombe and lives in this suburb for 20years. I love Lidcombe and my community. I showed my serious concerns to Cumberland Council's proposal to build an Organic Waste Transfer Station on 109A Church Street Lidcombe(DA2023/0130).

It is obvious to see the substantially bad impact to the local people since the location for the proposed construction is too close to the residential and commercial area. Therefore I strongly object to this proposal. I can list some bad affectors of this project in the following.

- 1.It would causes air and noise pollution.
2. It would make the local people suffer dust fumes & awful smell.
- 3.It has terrible affect on the residential, commercial & recreational environment.
- 4.It would do harm to the health & safety of local residents.
- 5.It would potentially reduce property value in this areas.

I do hope Lidcombe be kept safe, clean and more suitable to inhabit. I eagerly ask the councillors reconsider and give up this negative proposal(DA2023/0130), hear and pay most attention to our local voice and requests. I am looking forward to your reasonable and better decision.Thank you.

Kind regards

Your sincerely
