Message: Dear Cumberland councillors, I got shock and appeal my strong objection to the proposed Organic Waste Transfer Station outlined in Development Application DA2023/0130, for the site located at 109A Church Street, Lidcombe, NSW 2141, on Lot 1 DP 778492. This proposed facility is to be located alarmingly close - a mere 180 metres away from newly constructed residential apartments and my apartment. The potential increase in traffic congestion due to heavy waste-carrying vehicles frequently traversing out community street is a matter of significant concern. The additional traffic will not only disturb the peace of our neighbourhood but also heighten the risk of road incidents as we are currently suffering heavy traffic jam on Railway st, Church st, Arthur st during peak hours every day. I look forward to hearing your prompt response about our strong objections.
