Dear Cumberland councillors

I am writing to express my strong objection to development proposal DA2023/0130.

I have been living in Lidcombe for 23 years with my family. I love living in Lidcombe for the convenience of easy access to and from work, public transport and plenty of all local amenities and especially my community. Unfortunately I came across the news of the Development Proposal DA2023/0130 Construction and Operation of an Organic Waste Transfer Station, I was shocked in horror because of so close proximity of residential area. If this proposal approved there will be major impacts on our local area my concerns are;

1. Traffic congestion; Increased heavy vehicle traffic volumes with waste transportation will cause longer traffic queues and slower travel times.
2. Air, noise and soil Pollution.
3. Negatively impact an tranquillity of our suburb.
4. Negatively impacts on Health and Safety concerns of local residents.
5. Negatively impacts on property values
6. Negatively affect residential, commercial and recreational environment.

Considering all of the concerns the above, I strongly object the proposal DA2023/0130.

Therefore I request that Cumberland Council re evaluate the approval of development proposal.

Thank you for attending this matter and your prompt response will be greatly appreciated.
