I say no to Lidcombe Tip.

As a resident of Cumberland council, I'm concern that I only learn of this proposal when I disembark from Lidcombe Station to catch a bus to Berala this Friday 14.07.2023. This proposal poses significant impacts the community, our standard of living, our environment, traffic, noise yet only thanks to volunteers handling out flyers to spread the news. I don't a single post on social media.

I'm disgusted by the lack of communication and in-action by those who represent our community in addressing issues.

Also, why shouldn't my parents with limited literacy skills have the rights to use a template to voice their concerns. Why is there a limitation placed on individuals within the community whom may have limited literacy or computing skills to send template emails? They should have the option to agree or disagree on matters highlights on these templates and choose to put their personal details to show their support if they agree.

If there are any mis information provided by protesters, it should be the role of the local government to educate the community instead of placing restrictions.

You may argue people can have a say in their own language, well, that is not good enough. Many people in our community have limited schooling before they migrated to Australia. Are they not entitle to voice their opinion? Cumberland, you can do better, limiting options is simply not good enough.
