Dear Sir/Madam

I refer to the above development application.

I oppose the proposal to build an organic waste transfer station at 109A Church St in Lidcombe.

I have lived here part-time with my fiancé and his family since 2015 and have officially moved into the area in 2021.

As a Lidcombe resident, I am extremely concerned by:

1. the environmental impact of the construction of the organic waste transfer station;
2. the environmental impact of the operations of the organic waste transfer station, once built;
3. the impacts on the health, safety and wellbeing of the local residents, including my family;
4. the impacts on the property and capital assets in the suburb and the surrounding areas.

If the Cumberland Council were to accept this proposal, the long-lasting impacts on the residents would far outweigh the short-term monetary gain the council would obtain from this project.

I strongly recommend the Cumberland Council rejects the proposal.

Kind regards
