Reason for objection:

Dear Cumberland Council,

I hope this letter finds you in good health. I am writing to express my strong objection to the proposed construction of a rubbish tip on Church Street. As a concerned resident and member of this community, I believe it is crucial to voice my concerns regarding the potential negative impact this development will have on our neighbourhood.

Firstly, the construction of a rubbish tip in such close proximity to residential areas poses serious health and environmental risks. The disposal of waste materials can result in unpleasant odors, attracting pests and vermin, which can spread diseases and pose a threat to public health. Moreover, the accumulation of waste can lead to the contamination of soil and water sources, thereby endangering the overall well-being of our community.

Additionally, the increased traffic and noise associated with the operation of a rubbish tip will disturb the peaceful atmosphere that our community currently enjoys. The constant flow of garbage trucks, along with the associated noise pollution, will disrupt our daily lives and affect our quality of life. Our neighbourhood should be a place where families can reside in tranquility, and the proposed rubbish tip will compromise that ideal.

I strongly urge the council to reconsider the decision to construct a rubbish tip to our area. Instead, I propose that alternative locations be explored that are further away from residential areas, where the potential impact on public health, the environment and property values would be significantly reduced.

Thank you for your attention to this important issue. I look forward to a favourable response.

Yours sincerely,
