Subject: [EXTERNAL] OBJECTION to DA2023/0130, SITE: 109A Church St LIDCOMBE NSW 2141: Lot 1 DP778492

Importance: High

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good evening,

I strongly opposed the above DA2023/0130 - organic waste transfer station at site 109A Church Street Lidcombe.

The suburb of Lidcombe is heavily populated with residential and commercial buildings.

Each day the CBD of Lidcombe and its surrounding street including the proposed site consist of heavy traffic, especially during peak hours with an organic waste transfer station being built at 109A Church Street Lidcombe the 59 large garbage trucks will need to enter Lidcombe streets resulting in heavy traffic movement.

This will result in heavy traffic congestion as Lidcombe already has a lot of traffic coming in from Parramatta Road and its surrounding suburbs that bypass Lidcombe.

The waste station will heavily have a significant impact on the life of Lidcombe residents and also it will impact the general public who use Lidcombe Street as a bypass to Parramatta Road, Olympic Drive, The Centenary Drive.

The council needs to bear in mind that Lidcombe also is a big station hub, nearby suburbs that don't have a station go to Lidcombe station to catch a train to their destination hence with the construction of the waste transfer station with trucks working 6 days a week from 6am to 10pm (Mon - Friday) and 8am - 6pm on Saturday there will be a heavy traffic gridlock, not just Lidcombe but also it's surrounding suburbs.

Building an organic waste transfer station at site 109A Church Street Lidcombe in a residential suburb is really not suitable, as Lidcombe streets are narrow with parked cars on the road.

Other issues will also arise apart from heavy traffic congestion such as the following:

- **resulting in air, noise, and soil pollution on all streets that the trucks bypass**
- **Resulting in dust fume & bad smell on all streets that the trucks bypass**
- **more accidents on the roads due to heavy traffic**
- **negatively impact the health and safety of residents**
- **negatively impact the tranquility of Lidcombe**
- **59 garbage trucks will damage the streets of Lidcombe causing a lot of potholes hence leading to more accidents**

My contact details:

Regards
