To Cumberland Council,

I am sending this email because I want to voice my strong objection to the planned work of a rubbish tip near my house. I live close to the proposed site, and I use the roads that the trucks will travel on daily. It comes as no surprise that I am very concerned about the negative impacts that can already be expected to come from this work. Trucks are already a safety concern on the roads. Having to travel with trucks on a daily basis makes me very concerned about the possibility of accidents alongside the additional traffic congestion it will cause. These are major inconveniences to Lidcombe residents already. But not only that but I also have to worry about the pollution, the smell, the noise and impact it will cause on the quality of our living as well as our health through the air that we breathe when we live so close by to the rubbish tip. I certainly do not want that to be my home for the rest of my life, and neither would any other resident. Please heed our voices and reconsider this issue.

Kind regards,
