Hi Dear Cumberland Council

Since the proposal of the development DA2023/0130 for an organic waste facility to be built has been brought to our attention, as a resident of the Cumberland council area, I am here writing to you to express our objection to this development, which will bring the below mentioned (but not limited to) adverse impacts on the residents in and around the area.

1. Environmental negative impacts (such as noise, dust and odour generated by the rubbish trucks and the facility itself)
 2. Extra traffic worsening our existing congested traffic conditions
 3. Financial negative impacts on the values of the properties in the area affected because of the presence of such waste facility
