My name is \_\_\_\_\_ I very strongly  
object to the proposal to build an Organic Waste Transfer station at **109A Church street  
Lidcombe NSW 2141.**

There are many significant impacts on local residents, the surrounding suburbs and most importantly to be a health hazard for everyone.

1. As it is a very close proximity (100m) to residential property it poses a threat to the residents, schools, aged care and the environment. People won't be able to enjoy the fresh air without the bad odours from the Waste station.
2. There will definitely be traffic congestion on both sides of Lidcombe station adding to the long queues which currently exists.
3. The dust fumes will give rise to bad smells which result in air and noise pollution.
4. This will negatively affect property prices and people interested to live in this area.
5. Local residents will need to bear the costs of the ongoing damage to roads when numerous trucks enter/exit the site on a daily basis.
6. Lidcombe will not be the same anymore when the Waste Transfer station is built. Please keep Lidcombe beautiful.

Thank you & Regards
