Hello,

I am writing this in regards to my vehement objection to the proposed rubbish centre. The reasons being that this will severely affect the air with pollution, increase dust fumes and induce a terrible smell in the community.

Our primary concern is that this poor choice will lead to a negative impact on the healthy and safety of locals due to an increase in garbage truck movements, lower property values and negatively affect the residential, commercial and recreational environment.

We do not want Lidcombe to be a dumping ground, essentially reducing this thriving suburb into a smelly slum. If anything, put this dumping ground in Harris Park as a suggestion.

Kind regards,
