I am writing this email regarding my deep concern about the construction of the rubbish tip in our community. As a concerned resident of this community, I strongly urge the council to reconsider this decision.

Our community is a peaceful and clean environment where families can live, work and thrive. Having a rubbish tip in close proximity will have detrimental effects on our quality of life, health, and overall well-being of our community members.

One of the main concerns of the construction of the rubbish tip is the environmental impact. There will be significant environmental pollution and damage to the habitat e.g. soil, water sources, fauna, flora etc.

Another concern is the health impact. The rubbish tip would expose community members of foul odours, air pollution, and potential health risks e.g. respiratory issues, diseases etc.

The construction and operation of the rubbish tip will introduce the community of major traffic and noise disruption. This would negatively impact the peaceful lives of the residents, especially for those near the site.

Lastly, the presence of a rubbish tip can create a negative perception of our community in the eyes of visitors, potential investors, and businesses looking to relocate. This could harm economic growth and discourage individuals from considering our community as a desirable place to live and conduct business.

Considering the mentioned concerns, I kindly request the council to reconsider the decision to construct a rubbish tip in our community. I strongly urge you to find alternative solutions, such as finding a different location that minimizes the negative impacts on the residents also the environment.

Thank you for your time and attention to this urgent matter. I hope that you will give due consideration to the concerns raised by myself and fellow residents of our community. I look forward to your response on this matter and a positive resolution to this matter.

Thank you.

Regards,
