Hi,

My name is ; and am currently a resident at and would like to object on the matter of turning 109A Church St Lidcombe NSW 2141 (Lot 1 DP 778492) into a waste transfer station.

The Lidcombe area is already congested with the many apartment buildings along John St and will be even busier with the near completion of 4/5 new apartment buildings near the Lidcombe station. The operating hours spanning across 6 of the 7 days a week will definitely add to the already congested streets of Lidcombe.

The DCP claims that the hours of operation are managed to ensure residential amenity is protected but this cannot be guaranteed as businesses such as gyms, swimming pools, clubs and other recreational and social businesses will not want to set up shop with a waste transfer station nearby - it would make any financial sense as people do not want to socially gather near a waste transfer station.

The garbage tip will also cause unwanted air and noise pollution in the area.

I, and most likely a majority of the residents within the area, do not want 109A Church St Lidcombe NSW 2141 to be turned into a waste transfer station.

We urge you to take out opinions into consideration and reject this proposal.

Thank you.
