Dear Cumberland Council,

[REDACTED]

I am writing to you to express my concerns for the proposed plans to establish an organic waste transfer station at 109A Church Street, Lidcombe, NSW, 2141.

My concerns include:

- The increase in daily traffic, congestion and noise from trucks travelling through Lidcombe town and residential area, an area that is already heavily congested.
- The increase in heavy vehicle will increase the damage to roads and roundabouts. More frequent maintenance would be needed and it is unclear whether our council will need to cover the expenses.
- Odour from the site and from trucks travelling throughout Lidcombe that will have an impact on the health and well-being of residents in Lidcombe.
- While the site is in an industrial zone, its proximity is very close to residential area and schools. This is not an appropriate location for a waste station to be established.

I hope you reconsider plans to establish this waste station as it will have a negative impact on the health and well-being of residents.
