Subject: [EXTERNAL] Proposed waste transfer site Lidcombe

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

I strongly oppose this proposal.

There is no way that the site can accommodate the traffic in & out, let alone adding to the already bad traffic congestion that daily banks up at areas such as Arthur st & Bachell ave (the 2 main access points & exits for this location).

That location already is choked with trucks lining the street at all hours. And as for the environmental impact, the smell alone would have a detrimental effect on the area & an enormous affect on land values.

You can crap on as much as you want by denying it, that it wouldn't smell but I will call BS on that. Just like they promised with the Wetherill Park site of which you can smell from the M4.

The site is not a practical, viable location period.
