Regarding: Strongly oppose DA2023/0130 (Construction and operation of an organic waste transfer station at 109A Church street Lidcombe,NSW 2141)

I am a resident of Lidcombe, and my family and I strongly oppose the construction and operation of an organic waste transfer station at 109A Church street, Lidcombe ,NSW 2141.

The reasons are as follows:

Several new buildings have just been built nearby, and over 1000 residents are about to move in soon. The nearest new apartment block is less than 100 metres from the site of the proposed organic waste transfer station, which will seriously affect the health and quality of life of residents.

Also, that area has a one-way street, and the traffic is already very busy at the moment. If the waste transfer station is built there, the heavy vehicle traffic in there will definitely make the roads more chaotic and jammed than they already are.

I hope Cumberland city council will agree with us residents in opposing this project.

Regards.
