Subject: [EXTERNAL] Request to reject proposed rubbish tip at Lidcombe

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Dear Cumberland Council,

I am writing to express my strong opposition to the proposed development outlined in DA2023/0130 as a long-term resident of Lidcombe. As a concerned citizen, I believe that the establishment of such a facility would not only bring in more waste but also negatively impact the environment, property values, and the health of our community.

The proposed rubbish tip would not only increase air and water pollution but also attract vermin and other pests that can spread diseases. Additionally, the increased traffic and noise pollution resulting from the dumping of waste would add more stress on our already congested roads.

Furthermore, the establishment of the rubbish tip would adversely impact property values. Potential homebuyers would be deterred from purchasing homes in the vicinity of the dump site, leading to lower property values for local homeowners.

Moreover, it is important to note that there are other alternatives to managing waste that are not only environmentally friendly but also cost-effective.

Therefore, I urge you to reject the proposed rubbish tip and consider alternative methods of managing waste.

Thank you for your attention to this matter. Any questions, pls don't be hesitate to contact me on
