Dear Cumberland Council,

I am aware of the proposed development of an organic waste transfer station on 109A Church Street. I am concerned about the air pollution caused by the waste to the surrounding areas, especially to the Catholic school and the Lidcombe public school where my son and my little daughter go for learning every weekday. My little daughter just began her Year 1, and she is going to stay at the Lidcombe Public School for another 5 years. They may smell the terrible smell on the school playground where they have their lunch and do sports everyday. I serious worried about my children's overall wellbeing. Therefore I strongly object on the proposed development of this organic waste transfer station.

Sincerely,
